

## Beltronics

We would highly recommend Willows Consulting for any e-commerce solutions!

[www.beltronics.ie](http://www.beltronics.ie)

"We asked Willows Consulting to supply a customised website that should interact with our existing stock system. There is now a seamless link between our in-store order system and our online shop. We needed a site that would be stable, easy to maintain and customisable to suit our ever-changing industry.

The solution was provided on time, within budget and we were kept up to date as the project progressed. We would highly recommend Willows Consulting for any e-commerce solutions!"
