

How to get listed on Google local business results

Need to get listed on Google local business results ? Google has activated local business results since June 1 2009, this means Google will show a map of the service providers locations if a search contains a geographic location and another phrase that is referred to in a google business map. We can create an optimized link for you that will be active for visitors to see. [Click here](#) to order your listing now or call us today on 01 52 42 100 to order your insertion.

This is an image of the placement you can have. We do not guarantee a top spot for ever but we can get you there for a period of time. The value of this top position is the same as a google adword listing turned on in all locations 24/7. This could be worth up to 1200 euro a week. [Click here](#) to order your listing now.
