

## How to go about setting up an online shop in Ireland

When setting up an online store it is important to a firm who has a proven ability to design develop and deliver a profitable online presence.

Our team has the unique mix of engineers who have worked in retail too.

- Select the product you want to sell.
  - Examine closely what competitors are offering.
  - Source your product and if possible arrange drop shipment.
  - Source your shipping service.
  - Design your shop graphics and the look and feel.
  - We provide addons to enhance and increase your transaction value.
- 
- We set up all tax rates, etc and train you in running the application.
  - We provide post delivery help and support.
  - You eventually become the expert and start to expand products and services as demand dictates.
  - We keep you up to date with the latest developments in online shopping. You can then keep up to date by having them added to your online shop.
